LIST OF PERIODICALS CURRENTLY RECEIVED  
IN THE LIBRARY OF THE UNITED STATES  
DEPARTMENT OF AGRICULTURE,  
JUNE 1, 1936

---

INTRODUCTION

The following list of periodicals is arranged in two parts, the first being the list of titles arranged alphabetically and the second the list of titles arranged according to subject. Part 3 is a key to the subjects.

The list does not include publications received by the Weather Bureau Library. With a few exceptions it does not include mimeographed publications nor farm bureau and agricultural extension publications. It also does not contain general newspapers. In the case of the publications of the United States Department of Agriculture and the State experiment stations, only regular periodicals are included, not bulletins and circulars. The same is true of the publications of other United States Government departments. The Russian periodicals are brought together in a separate list beginning on page 189, but a cross reference to each from the form of title used is included in the alphabetical list. It was not practicable to include references from other forms in the case of these Russian titles.

In connection with the periodicals in the field of economics, statistics, finance, and commerce, it should be pointed out that the Bureau of Agricultural Economics library issued in 1932 in mimeographed form a separate list of all the periodicals at that time being circulated to that Bureau. A supplement was also issued in 1934. These lists entitled "Periodicals Received Currently in the Library of the United States Bureau of Agricultural Economics", included all periodical publications of an economic character, not only printed but mimeographed, which were at that time being received in the Library. The bulk of these mimeographed items, however, are not included in the present list since mimeographed publications in general are omitted.

Attention is also called to a separate mimeographed list entitled "A Union Checklist of Forestry Serials" which was issued by the Forest Service library in March 1936.

This present general list supersedes three previous general lists of periodicals received by the Library: (1) Catalog of the Periodicals and Other Serial Publications in the Library, issued in 1901 as Library Bulletin 37, which included all of the Library serial holdings on that date; (2) List of Periodicals Currently Received in the Library, issued in 1909 as Library Bulletin 75; and (3) List

of Serials Currently Received in the Library of the United States Department of Agriculture, which was issued in January 1922 as Department Circular 187. The list issued in 1909 was similar in scope to the present list in that it included only regular periodicals. The former included 1,575 titles as compared with 3,871 in the present list.

Acknowledgment is made of the preliminary work on the list which was done by William E. Jordan, cataloger, before leaving the Department to take up work at the Brooklyn Botanic Garden Library.

CLARIBEL R. BARNETT, *Librarian*.

## PART 1. LIST OF PERIODICALS, ARRANGED ALPHABETICALLY

Abbreviations: s-a=semiannual; q=quarterly; s-q=semi-quarterly; m=monthly; bi-m=bimonthly; s-m=semimonthly; w=weekly; bi-w=biweekly; s-w=semiweekly; d=daily; a=annual; irr=irregular.
